EXPERIENCE

HEAD OF CLIENT SUCCESS OPERATIONS | *MEDIVIS* | *SEATTLE, WA*

2022-2026

Directed national customer success and operations strategy for a Series A surgical AR/AI startup, scaling SaaS initiatives that advanced patient care and enhanced surgical outcomes

- Operationalized Customer Success through scalable playbooks, contributing to \$1M in ARR growth.
- Led client outreach, account strategy, operations, and growth as the first Customer Success hire, building foundational processes for early-stage scaling.
- Built and led a team of 6 remote account managers, scaling territory and headcount by 600%, strengthening performance, client coverage, and team accountability.
- Optimized CRM and performance tracking by managing KPIs, monitoring account health, and implementing NPS collection, improving customer insight and retention tracking.
- Owned customer journey strategy and post-sales implementation, improving onboarding consistency and the overall client experience and maintained an average NPS of 7/10.
- Increased paying clients by 50% from June 2023 to June 2025 through targeted retention and expansion strategies.
- Partnered cross-functionally to translate customer feedback into product roadmap priorities for 3 new product launches.
- Led the clinical launch of the first FDA-cleared cranial AR surgical product, developing onboarding and long-term support strategies.
- Delivered quarterly business reviews to C-level stakeholders, aligning on performance, priorities, and identifying growth opportunities.

REGIONAL SUPPORT MANAGER- DIGITAL SURGERY | *BRAINLAB INC* | *SEATTLE, WA*

2019-2022

Directed regional operations and clinical support for surgical navigation technology across multi-state territory.

- Directed Pacific Northwest operations for a \$40M revenue portfolio, leading 25 remote employees and strengthening regional performance.
- Managed relationships with 150+ healthcare institutions, including UCSF, Intermountain Health, OHSU, Stanford, and Neuralink, to support strategic account growth.
- Served as a trusted advisor to leading neurosurgeons, overseeing a \$7M book of business and driving account expansion.
- Reduced regional turnover by 60% through targeted retention initiatives and team development strategies.
- Acted as the primary escalation point for complex system issues, maintaining SLA compliance and high customer satisfaction.
- Integrated field feedback into support workflows to improve service delivery and responsiveness.
- Analyzed support metrics, including resolution time, to increase team efficiency and improve process performance.

APPLICATION CONSULTANT/CLINICAL SPECIALIST- SURGICAL NAVIGATION | *BRAINLAB INC* | *SAN FRANCISCO*

2016- 2019

Delivered direct clinical support to neurosurgical teams utilizing image-guided surgical systems.

- Achieved high system adoption by delivering targeted training to surgeons, nurses, and technical staff, increasing user proficiency and engagement.
- Provided real-time clinical and technical support during high-stakes neurosurgical procedures, ensuring seamless performance and patient safety.
- Resolved frontline technical issues and delivered actionable feedback to R&D, driving continuous product improvement.
